Assessment Requirements for SFIAQU309 Carry out emergency procedures

Release: 1

Assessment Requirements for SFIAQU309 Carry out emergency procedures

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has used contingency plans to carry out emergency procedures on at least one simulated occasion, including:

- identifying workplace hazards, risk and emergency situations
- testing and providing feedback on contingency plans and procedures to minimise losses in the event of an emergency:
 - briefing and debriefing of team members on plans and procedures
 - assessing risks and hazards
 - coordinating emergency responses
 - using personal protective equipment and maintaining emergency equipment for ready access
- maintaining workplace documents relevant to emergency procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- risk identification and assessment, and mitigation controls relevant to aquaculture operations
- key features of aquaculture operations emergency and evacuation plans
- methods to plan emergency drills to test contingency plans or loss-minimisation procedures
- effective communication techniques in emergency situations
- emergency support services, including contact details
- location, use and care of emergency and personal protective equipment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an aquaculture workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment
 - emergency equipment relevant to the particular incident or emergency
- specifications:
 - workplace and emergencies procedures
 - contingency plans and loss-minimisation strategies
- relationships:
 - evidence of interactions with supervisor, team members and third parties.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
