Assessment Requirements for SFIAQU314 Interpret aquatic digital information

Release: 1

Assessment Requirements for SFIAQU314 Interpret aquatic digital information

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has accessed, inputted and recorded aquatic digital information on at least 2 occasions.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- safe work practices working with digital technology
- procedures and security measures for accessing, storing and retrieving information from aquatic digital devices
- aquatic information requirements, including:
 - environmental aspects
 - standard operating procedures
- functions of digital devices
- use and features of information outputs.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an environment that accurately represents workplace conditions
- resources, equipment, materials:
 - aquatic digital devices
- specifications:

- relevant procedural workplace policies relating to digital security and safety.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
