Assessment Requirements for SFIAQU408 Supervise harvest and post-harvest activities

Release: 2

Assessment Requirements for SFIAQU408 Supervise harvest and post-harvest activities

Modification History

Release	Comments
Release 2	This version released with SFI Seafood Industry Training Package Version 2.0.
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has coordinated and supervised harvest and post-harvest activities in an aquaculture environment on at least one occasion, including:

- developing a harvest and post-harvest schedule to meet harvesting requirements
- communicating harvest and post-harvest responsibilities to staff, senior personnel and suppliers of services
- overseeing harvest and post-harvest activities, complying with legislative and regulatory and workplace quality requirements
- completing compliance and other reporting requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- harvesting and post-harvesting techniques for a range of species or stock
- quality control procedures relevant to harvesting, grading and storage of stock
- quality parameters in specific types of stock
- staff feedback on work performance methods
- technology and/or equipment used in harvest and post-harvest activities
- compliance and reporting requirements
- legislative and biosecurity regulatory requirements relevant to harvest and post-harvest activities.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an aquaculture workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - equipment required for harvest and post-harvest activities
 - stock to harvest and prepare for transport
 - workplace forms and recording technology
- specifications:
 - customer or production plans and other requirements to develop a harvest schedule
 - workplace procedures for harvest and post-harvest operations
- relationships:
 - evidence of interactions with senior personnel and staff.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
