Assessment Requirements for SFICRO401 Manage minor crocodile incidents in the wild

Release: 1

Assessment Requirements for SFICRO401 Manage minor crocodile incidents in the wild

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has:

- managed at least five simulated minor crocodile incidents
- conducted at least one simulated media interview.

In doing the above, there must also be evidence that the individual has:

- complied with crocodile risk and safety standards
- treated crocodiles humanely
- complied with biosecurity and health and safety guidelines
- communicated with relevant parties.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- risk factors in crocodile habitats
- types of potential incidents involving crocodiles
- potential hazards and risks at the site of a crocodile incident:
 - crocodile weight and size (if it is still at the scene or in the vicinity)
 - other crocodiles in the vicinity
 - unpredictable behaviour
 - environmental hazards and contamination
 - peoples' actions
- basic features of incident management system, including:
 - roles of team members, including medical personnel
 - chain of command and communication
 - sequence of action to be followed

- incident zones – hot, warm, cold
- incident barricade procedures
- briefing and debriefing processes
- media communication:
 - getting background information about the interview/key areas of focus/the interviewer
 - preparing by mapping out key message(s)
 - staying factual in information delivery, not speculating
 - explaining events in a manner that can be understood by the audience
 - remaining even-tempered
 - not answering hypothetical questions
- agency liaison, including:
 - medical
 - government
 - national parks
- safe working practices, including:
 - personal protective equipment (PPE)
 - hygiene and biosecurity procedures
 - basic manual handling techniques
- biosecurity guidelines for crocodile habitats, including not contaminating waterways
- culturally sensitive communication protocol.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an environment that accurately represents workplace conditions
- resources:
 - policies relating to media interviews
- specifications:
 - crocodile safety documentation, codes of practice, policies and procedures
- relationships:
 - relevant parties.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
