Assessment Requirements for SFICRO402 Harvest crocodiles for commercial use

Release: 1

Assessment Requirements for SFICRO402 Harvest crocodiles for commercial use

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has:

- conducted at least five crocodile harvest activities.

In doing the above, there must also be evidence that the individual has:

- followed crocodile risk and safety standards
- harvested crocodiles humanely
- complied with biosecurity guidelines
- complied with legislation and regulation associated with crocodile euthanasia or destruction.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- reasons for harvesting crocodiles:
 - crocodile farming for skin
 - crocodile farming for meat
- equipment required to effectively and humanely use different euthanasia/destruction processes
- relevant legislation/regulation and code of practice relating to crocodile welfare
- crocodile anatomy and physiology
- crocodile destruction techniques
- how to use different harvesting equipment and materials
- the principles of animal welfare and ethics
- handling deceased crocodiles with dignity
- hygiene principles and cleaning processes

- biosecurity guidelines for crocodile carcasses
- risks and workplace health and safety issues associated with crocodile operations
- culturally sensitive communication protocol.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an environment that accurately represents workplace conditions
- resources, equipment and materials, including access to:
 - appropriate firearms
 - personal protective equipment (PPE)
 - live and deceased crocodiles and/or crocodile replicas where assessment would be unsafe, impractical or unethical
- specifications:
 - crocodile safety documentation, policies and procedures
- relationships:
 - relevant personnel.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
