SHBHTLS008 Originate and refine hair design concepts

Release: 1

SHBHTLS008 Originate and refine hair design concepts

Modification History

Not applicable.

Application

This unit describes the performance outcomes, skills and knowledge required to originate and refine hair design concepts for products, programs, or services to a point where they could be implemented.

This unit applies to highly skilled senior hairdressers who have substantial experience across the industry and who work at a national or international level as freelance session stylists or creative or artistic directors for larger hairdressing organisations and product companies. They work with significant autonomy, have highly developed specialised technical, creative, conceptual and leadership skills and knowledge and are responsible for making a range of strategic design, operational and team decisions. They provide technical and creative leadership, training and support to colleagues and the industry at large.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Competency Field

Technical Leadership

Unit Sector

Hairdressing

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes

1. Evaluate and explore needs and opportunities.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.1. Research and evaluate information that informs development of new hair design concepts.
- 1.2. Explore new ideas that challenge existing assumptions, preconceptions and current practices.
- 1.3. Identify and analyse factors that could impact on

- concepts to be developed, including potential for commercialisation.
- 1.4. Research and evaluate ideas and approaches of other hairdressing practitioners considering intellectual property and copyright requirements.
 - 1.5. Develop preliminary ideas on innovative ways to address needs and opportunities.
 - 1.6. Evaluate and agree on broad parameters for further concept development in consultation with relevant stakeholders.
2. Develop a range of creative approaches for innovative hair designs.
 - 2.1. Use a range of creative thinking techniques to generate innovative and creative hair design concepts to address identified needs.
 - 2.2. Challenge, test and experiment with different concepts as part of a collaborative process.
 - 2.3. Evaluate concepts for their suitability for target audience or purpose, their feasibility and commercial potential.
 - 2.4. Take account of social, ethical and environmental issues as concepts are generated and discussed.
 - 2.5. Identify and evaluate resources required to achieve desired creative and innovative outcomes.
 - 2.6. Evaluate effectiveness of different techniques for achieving desired outcomes.
 - 2.7. Select concepts that achieve innovative and feasible outcomes.
 - 2.8. Present proposed concepts in an appropriate format.
 3. Refine hair design concepts.
 - 3.1. Ensure concept development process is open to ongoing refinement and testing.
 - 3.2. Seek input and feedback on concepts from relevant stakeholders.
 - 3.3. Seek specialist advice on creative and technical aspects of proposals as required.
 - 3.4. Compare concepts with best practice examples of similar products, programs, processes or services.
 - 3.5. Use a range of creative and practical criteria to determine the advantages and disadvantages of different concepts.
 - 3.6. Evaluate constraints on realisation of concepts.
 - 3.7. Refine proposals based on analysis and feedback.

Foundation Skills

Foundation skills essential to performance in this unit, but not explicit in the performance criteria are listed here, along with a brief context statement.

Skill	Description
Writing skills to:	• present complex design proposals in a format and style that can be understood by a broad audience.
Oral communication skills to:	• clearly represent complex and innovative design concepts to others • ask open and closed probe questions and actively listen to elicit input and feedback on design concepts.
Self-management skills to:	• critically analyse input from self and colleagues.

Assessment Requirements for SHBHTLS008 Originate and refine hair design concepts

Modification History

Not applicable.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- develop three hair design concepts for products, programs, or services
- produce a documented concept proposal for each design to include descriptive text and images that represent the design
- for one of the three concepts, develop a report that covers:
 - organisational or personal context in which concept was developed and information used to inform the concept
 - creative thinking techniques and collaborative processes used to generate, test and refine ideas leading to the final design concept
 - the resources required to implement the design
 - practical, operational and commercial issues that will impact on feasibility of eventual realisation of the design.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- broad organisational or personal context in which concepts are being developed and information that can inform:
 - market research and client feedback
 - organisation's existing product or service range and style
- practical, operational and commercial issues that can impact on concept development and feasibility of eventual realisation of designs:
 - availability and cost effectiveness of using resources both human and equipment
 - technical difficulty of implementing designs
 - suitability for target audience or purpose and size of available market
 - social, ethical and environmental issues
 - fit with organisational or personal objectives, values and priorities
- primary components of copyright, intellectual property and design laws:
 - business or individual's rights over original designs
 - business or individual's responsibility to comply with laws that protect copyrighted products

- extent to which work can be used or adapted
- procedures for seeking permission to use or adapt the work of others and systems for the administration of copyright
- a range of creative thinking techniques:
 - brainstorming
 - daydreaming and mental wandering
 - lateral thinking games
 - making associations
 - mind mapping
 - trigger words
 - use of metaphors and analogies
 - visualisation
 - wishful thinking
- a range of formats for, inclusions and uses of descriptive concept proposals for hairdressing industry designs
- methods of sketching or digitally representing hairdressing industry designs.

Assessment Conditions

Assessment must ensure use of:

- people with whom the individual can interact for all communication aspects of this unit; these can be:
 - people in an industry workplace; or
 - people who participate in project activities, role plays or simulated activities within a training organisation
- computers and general software programs to document concept proposals
- templates to record concept proposals.

Assessors must satisfy the Standards for Registered Training Organisation's requirements for assessors; and:

- hold the Graduate Certificate in Hairdressing Creative Leadership, or be able to demonstrate equivalence of competencies; and
- have at least five years full time employment experience in the hairdressing industry where they have applied the skills and knowledge covered in this unit of competency.
