1	This qualification was first released in SIF Funeral Services Release 1.0.

Qualification Description

This qualification reflects the role of individuals who undertake routine work in a range of operations that generally lead to pathways within the funeral services industry. These roles are generally performed working under supervision, with limited autonomy and judgement to complete routine but variable tasks in collaboration with others. Knowledge and application of funeral services industry protocols is required when dealing with the bereaved.

These individuals may work in:

- funeral homes, assisting the funeral director in transferring deceased remains; preparing, driving and maintaining funeral vehicles; and assisting in the conduct of funerals
- funeral home mortuaries, providing administration and operational support, which may include contact with deceased remains
- cemeteries assisting with the maintenance of grounds and structures, or assisting with digging graves or assisting with transferring and burying coffins and caskets.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

This qualification has no entry requirements.

Packaging Rules

12 units must be completed:

- **3 core units**
- **9 elective units** consisting of:
 - a maximum of 2 units from Group A: Work Health and Safety
 - a minimum of 4 elective units must be selected from the General elective units listed below

- a maximum of 4 elective units, first packaged at AQF level 2 or 3, may be selected from elsewhere in SIF Funeral Services Training Package or any other current Training Package or accredited course. Refer to the AQF packaging of Funeral Services units in the Companion Volume Implementation Guide.

In all cases, selection of electives must be guided by the job outcome, local industry requirements and the characteristics of this qualification (as per the AQF descriptors).
