Assessment Requirements for SISXCAI001 Provide equipment for activities

Release: 1

Assessment Requirements for SISXCAI001 Provide equipment for activities

Modification History

Not applicable.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- set up, demonstrate, use, dismantle, and store at least ten different pieces of equipment for activities over at least three different sessions
- demonstrate the use of:
 - appropriate equipment suitable to the activity and participant requirements
 - appropriate personal protection equipment such as helmets, gloves, shin pads
- convey information about essential safety aspects of all equipment
- complete the appropriate documentation to record:
 - a variety of equipment issued to participants
 - at least one missing piece of equipment
 - at least one damaged piece of equipment.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- strategies to access and provide equipment for the relevant sessions
- basic aspects of legislation that enable safe equipment use, maintenance and storage:
 - work health and safety/occupational health and safety requirements
- organisational policies and procedure to enable safe equipment use, maintenance and storage
 - safety procedures
 - communication protocols
 - roles and responsibilities of different people, and types of tasks undertaken
 - reporting channels
 - managing payments and refunds for equipment hire
 - equipment hire
 - frequency and scope of equipment checks
 - reporting and record keeping
- equipment specifications and instructions to enable the selection and safe use of appropriate equipment for identified activities

- equipment testing and checking techniques, as specified by manufacturer, for:
 - damage
 - missing parts
 - failure to operate
 - structural faults.

Assessment Conditions

Skills must be demonstrated in:

- a sport, fitness or recreation environment with access to required equipment for participants. This can be a workplace or simulated environment.

Assessment must ensure use of:

- up-to-date equipment currently used in the sport, fitness or recreation industries, to ensure:
 - safety, e.g. helmets, head gear, gloves
 - the participant can participate in activities to suit their goals, e.g. racquets, bats, balls
- workplace documents currently used in the sport, fitness or recreation industries:
 - equipment hiring documentation
 - safety and maintenance of equipment checklists and report forms
- organisational policies and procedures related to reporting and record keeping.
- activity supervisor and participants in a sport, fitness or recreation activity; supervisor and participants can be:
 - staff and participants in an industry workplace who are assisted by the individual during the assessment process or
 - individuals who participate in role plays or simulated activities, set up for the purpose of assessment, in a simulated industry environment operated within a training organisation.

Assessment activities that allow the individual to:

- provide equipment for sport, fitness or recreation sessions for a range of participants over a period of time that adequately reflects the workplace role, for example: pre-season of a sport; a community health program delivered over several weeks; or a gym program delivered over a period of time to achieve goals.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors.
