SITHASC022 Prepare Asian stocks and soups

Release: 1

SITHASC022 Prepare Asian stocks and soups

Modification History

Not applicable.

Application

This unit describes the performance outcomes, skills and knowledge required to prepare stocks and soups for Asian cuisines.

The unit applies to hospitality and catering organisations that offer Asian cuisine and to cooks who usually work under the guidance of more senior chefs. The unit may be applied to one or more Asian cuisines.

The skills in this unit must be applied in accordance with Commonwealth and State or Territory legislation, Australian standards and industry codes of practice.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Pre-requisite Unit

Unit Code	Unit Title
-----------	------------

SITXFSA005	Use hygienic practices for food safety
------------	--

Competency Field

Asian Cookery

Unit Sector

Hospitality

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1. Select ingredients.
 - 1.1. Confirm food production requirements from standard recipes.
 - 1.2. Calculate ingredient amounts according to requirements.
 - 1.3. Identify and select ingredients for stocks and soups from stores according to recipe, quality, freshness and stock rotation requirements.
 - 1.4. Check perishable supplies for spoilage or contamination prior to preparation.
2. Select, prepare and use equipment.
 - 2.1. Select type and size of equipment suitable to requirements.
 - 2.2. Safely assemble and ensure cleanliness of equipment before use.
 - 2.3. Use equipment safely and hygienically according to manufacturer instructions.
3. Portion and prepare ingredients.
 - 3.1. Sort and assemble ingredients according to food production sequencing.
 - 3.2. Measure, weigh and blend herbs, spices and other ingredients according to recipe requirements.
 - 3.3. Prepare, cut and portion ingredients according to recipe and cooking style.
 - 3.4. Minimise waste to maximise profitability of food items prepared.
4. Cook stocks and soups.
 - 4.1. Select and use relevant cookery processes for stocks and soups.
 - 4.2. Follow correct timing and temperature requirements when cooking stocks and soups to maintain quality.
 - 4.3. Use sauces to achieve required results.
 - 4.4. Incorporate stocks into other dishes according to standard recipes and cuisine requirements.
 - 4.5. Follow standard recipes and make food quality adjustments within scope of responsibility.
5. Present and store stocks and soups.
 - 5.1. Portion and present soups on appropriate service-ware.
 - 5.2. Add accompaniments and garnishes according to standard recipes.
 - 5.3. Visually evaluate dish and adjust presentation.
 - 5.4. Ensure food safety, quality and shelf life by storing food in appropriate environmental conditions.

- 5.5. Clean work area and dispose of or store surplus and re-usable by-products according to organisational procedures, environmental considerations and cost-reduction initiatives.

Foundation Skills

Foundation skills essential to performance in this unit, but not explicit in the performance criteria are listed here, along with a brief context statement.

SKILLS	DESCRIPTION
Reading skills to:	- locate information in standard recipes to determine food preparation requirements - interpret manufacturer instructions for equipment - locate and read date codes and rotation labels on food products.
Writing skills to:	record notes on recipe requirements.
Numeracy skills to:	- calculate the number of portions - determine cooking times and temperatures - measure quantities of ingredients using simple measuring instruments.
Problem-solving skills to:	- evaluate quality of ingredients and finished dishes and make adjustments to ensure a quality product - adjust taste, texture and appearance of food products according to identified deficiencies.
Self-management skills to:	manage own speed, timing and productivity.

Unit Mapping Information

Supersedes and is equivalent to SITHASC003 Prepare Asian stocks and soups.

Assessment Requirements for SITHASC022 Prepare Asian stocks and soups

Modification History

Not applicable.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- follow standard recipes to prepare at least five different stocks and five different soups from at least three of the following Asian cuisines (across the preparation of the five stocks and five soups):
 - Chinese
 - Indian
 - Indonesian
 - Japanese
 - Korean
 - Malay and Nonya
 - Thai
 - Vietnamese
- prepare the above stocks for use in different recipes:
 - within commercial time constraints
 - reflecting required quantities to be produced
 - following procedures for portion control and food safety practices when handling and storing different stocks
- prepare the above soups:
 - within commercial time constraints
 - following procedures for portion control and food safety practices when handling and storing soups
 - responding to at least one special customer request.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- culinary terms and trade names for ingredients commonly used in producing stocks and soups:
 - herbs and spices
 - meat:
 - beef

- chicken
 - lamb
- sauces
- seafood
- vegetables
- required changes to stocks and soups to reflect cultural and regional considerations and variations
- contents of date codes and rotation labels for stock
- characteristics of stocks and soups and their ingredients:
 - appearance and presentation
 - combinations of spices
 - quality indicators
 - service style
 - strength of flavours
 - taste
 - texture
- mise en place requirements for stocks and soups
- preparation and cookery processes for Asian stocks and soups
- appropriate environmental conditions for storing stocks and soups to:
 - ensure food safety
 - optimise shelf life
- safe operational practices using essential functions and features of equipment used to produce Asian stocks and soups.

Assessment Conditions

Skills must be demonstrated in an operational commercial kitchen. This can be:

- an industry workplace; or
- a simulated industry environment, such as an industry-realistic training kitchen servicing customers.

Assessment must ensure access to:

- fixtures and large equipment:
 - commercial:
 - blenders and food mills
 - food processors
 - commercial grade work benches (1.5m/person)
 - commercial refrigeration facilities:
 - freezer
 - fridge
 - designated storage area for dry goods and perishables

- sink
- gas electric or induction stove tops (two burners per person)
- grills and griddles
- storage facilities
- small equipment:
 - containers for hot and cold food
 - cutting boards
 - graters and peelers
 - knives and Asian cleavers
 - measures:
 - measuring jugs
 - measuring spoons
 - portion controlled scoops
 - pans and pots:
 - stainless steel, cast iron and non-stick fry pans
 - stock pots
 - woks
 - scales
 - service-ware:
 - platters, dishes and bowls
 - cutlery
 - sets of stainless steel bowls
 - small utensils:
 - scoops, skimmers and spiders
 - strainers
 - scrapers
 - tongs
 - whisks
 - spoons and ladles
 - steamer
 - spice grinder
 - temperature probe
 - thermometer
- food safe gloves
- diverse and comprehensive range of perishable food supplies for Asian cookery
- cleaning materials and equipment:
 - cleaning cloths
 - commercial cleaning and sanitising agents and chemicals for cleaning commercial kitchens, equipment and food storage areas
 - dustpans and brooms

- garbage bins and bags
- hand towel dispenser and hand towels
- mops and buckets
- separate hand basin and soap for hand washing
- sponges, brushes and scourers
- tea towels
- organisational specifications:
 - equipment manufacturer instructions
 - current commercial stock control procedures and documentation for ordering, monitoring and maintaining stock
 - mise en place lists and standard recipes
 - food safety plan
 - guidelines relating to food disposal, storage and presentation requirements
 - safety data sheets (SDS) for cleaning agents and chemicals
- safe working environment.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors; and:

- have worked in industry for at least three years where they have applied the skills and knowledge of this unit of competency.
