SITHFAB015 Provide silver service

Modification History

Not applicable.

Application

This unit describes the performance outcomes, skills and knowledge required to provide full silver service in a fine-dining restaurant. It requires the ability to prepare tables for silver service and use silver service techniques to serve meals.

The unit applies to hospitality organisations where silver service of food is provided, such as à la carte or fine-dining restaurants.

Silver service standard refers to superior table service in a fine-dining setting where diners are provided with a high level of personalised attention and table service. Some menu items may also be prepared and served at the table rather than being ready plated in the kitchen.

The unit applies to senior food and beverage attendants who operate independently or with limited guidance from others. They may provide operational advice and support to team members.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.
