TLI40219 Certificate IV in International Freight Forwarding (Senior Operator)

Release 1

TLI40219 Certificate IV in International Freight Forwarding (Senior Operator)

Modification History

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package.

Qualification Description

This is a qualification for those engaged in international freight forwarding job roles at a senior operational level within the international freight forwarding industry.

It involves a broad range of skilled applications, including evaluating and analysing current practices, developing new criteria and procedures for performing current practices, and providing some leadership and guidance to others.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

A total of **11 units of competency** comprising:

6 core units listed below, **plus**

5 general elective units from the general elective units listed below.

Up to **2 of the general elective units** may be selected from any relevant nationally endorsed Training Package or accredited course. The general elective units must contribute to the vocational outcomes of the qualification.

Where imported units are selected, care must be taken to ensure that all prerequisite units specified are complied with.

Core units
