TLI40822 Certificate IV in Rail Safety Investigation

Release 1

TLI40822 Certificate IV in Rail Safety Investigation

Modification History

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package.

Qualification Description

This is a qualification for a person who undertakes a rail safety investigation within the rail industry in accordance with regulations, rail network standards, rules and procedures.

This qualification applies to a technically competent or rail operations experienced person who, while working under a level of supervision, has responsibility for investigating safety incidents to exercise discretion and judgement using appropriate rail knowledge to provide technical assistance and safety support to rail operations stakeholders.

Job roles:

This qualification is aligned to the following defined role:

- rail safety incident investigator.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.
