  - relevant international and Australian state/territory road rules and transport regulations
  - relevant legislative requirements, codes and regulations for cargo export
  - relevant state/territory environmental protection legislation
  - relevant state/territory work health and safety (WHS)/occupational health and safety (OHS) legislation
- contacts and sources of information/documentation needed when organising cargo export
- procedures for batching, dating and numbering
- procedures for calculating weights, volumes and dimensions
- procedures for completing consignment documentation
- procedures for reviewing transport options and availability of carriers
- workplace customer service policies and procedures.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so. Where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice

and operation manuals

- relevant materials, tools, equipment and personal protective equipment currently used in industry.
