TLIA0010 Identify goods and store to specifications

Release: 1

TLIA0010 Identify goods and store to specifications

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to identify goods and store to specifications in accordance with relevant regulations and workplace requirements, as part of work operations in the transport and logistics industry.

It includes identifying and categorising goods, matching goods to locations based on specified criteria and assisting individuals to solve stock identification and location problems.

Work is performed under some supervision generally within a team environment.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

A – Handling Cargo/Stock

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Identify and categorise goods

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | |
|------------|---|
| 1.1 | Goods are identified and categorised in accordance with specifications and workplace procedures |
| 1.2 | Equipment is selected and used safely according to workplace procedures and regulatory requirements |

- | | | | |
|----------|---|------------|--|
| 2 | Match goods to locations based on specified criteria | 2.1 | Locations for goods are determined based on workplace procedures |
| | | 2.2 | Labels, goods systems and other information sources are used to assist in identifying goods, and handling and storage requirements |
| 3 | Assist individuals to solve stock identification and location problems | 3.1 | New stock items are identified and communicated with relevant personnel |
| | | 3.2 | Stock queries are predicted and team members are assisted to locate stock information relevant to these goods |
| | | 3.3 | Personnel are assisted with routine and non-routine stock enquiries and actions are taken to update goods information |
| | | 3.4 | Personnel are encouraged to build knowledge of items |
| 4 | Identify appropriate transfer and handling requirements | 4.1 | Resources used to transfer different goods through storage zones are identified and evaluated |
| | | 4.2 | Work in receipt and despatch areas is supported by identifying and reporting variances |
| | | 4.3 | Relevant documentation is completed in accordance with workplace procedures |
| 5 | Contribute to continuous improvement | 5.1 | Customer requirements are used to determine work design |
| | | 5.2 | Problems are identified, control measures determined and notified to appropriate personnel |
| | | 5.3 | Improvements to work methods are identified and notified to appropriate personnel |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to TLIA3017 Identify products and store to specifications.
