Assessment Requirements for TLIA0011 Implement and monitor stevedoring regulations

Release: 1

Assessment Requirements for TLIA0011 Implement and monitor stevedoring regulations

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating and negotiating effectively with others
- coordinating compliance activities in the workplace
- dealing with internal or external customers in large, medium or small workplaces
- following processes for monitoring compliance with regulatory requirements
- modifying activities depending on operational contingencies, risk situations and environments
- reading and interpreting relevant regulatory requirements, instructions, procedures and labels
- reporting and/or rectifying identified breaches of stevedoring regulations promptly in accordance with regulatory requirements and workplace procedures
- reporting on compliance related issues
- resolving everyday conflict situations
- selecting and using appropriate personal protective equipment (PPE) conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards
- working collaboratively with others when implementing and monitoring stevedoring regulations
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- operational work systems, equipment, management and site operating systems for stevedoring operations
- problems that may occur when implementing and monitoring compliance with stevedoring regulatory requirements and appropriate actions that can be taken to resolve these problems
- relevant Australian and international regulations and codes of practice
- relevant customs, approved storage facilities, quarantine and other legislative requirements, including International Maritime Dangerous Goods (IMDG) Codes and Marine Orders

- relevant WHS/OHS and environmental protection procedures and guidelines
- roles and responsibilities of various workplace personnel in terms of workplace activities and regulatory requirements
- site layout of container or cargo terminal or wharf
- workplace/standard operating procedures (SOPs) and policies for implementing and monitoring compliance with stevedoring regulatory requirements.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions where implementing and monitoring stevedoring regulations can be demonstrated.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- relevant and appropriate materials, tools, equipment and PPE
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
