Assessment Requirements for TLIA0020 Package goods

Release: 1

Assessment Requirements for TLIA0020 Package goods

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, and performance criteria on at least one occasion and include:

- applying safety precautions and required action to minimise, control or eliminate hazards that may exist during work activities
- attaching and completing relevant documentation to goods
- checking and monitoring equipment performance
- checking operation of packaging equipment in terms of service schedule and standard operating procedures
- communicating and working effectively with others when conducting work
- completing documentation related to work activities when packaging goods
- following work activities in terms of planned schedule
- reading and interpreting instructions, procedures and labels
- selecting and using relevant materials
- selecting and using required personal protective equipment (PPE) conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards
- working without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- differences in equipment
- documentation requirements for packaging goods such as a workplan
- housekeeping standards and procedures
- operational work systems and equipment for packaging goods problems associated with packaging goods and appropriate action to resolve these problems
- potential problems and possible solutions relating to packaging goods
- relevant legislation, regulations, codes of practice, industry guidelines and workplace policies and procedures for packaging goods
- relevant WHS/OHS and environmental protection procedures and guidelines

- site layout and obstacles
- size, shape and special requirements estimations of goods.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
