Assessment Requirements for TLIA0027 Consolidate freight

Release: 1

Assessment Requirements for TLIA0027 Consolidate freight

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures, including chain of responsibility
- communicating and working effectively with others
- completing required documentation
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring work activities in terms of planned schedule
- operating and adapting to differences in freight and equipment in accordance with workplace procedures
- reading, interpreting and following relevant instructions, procedures, information and signs
- selecting and using required available technological equipment
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria, include knowledge of:

- capacity and capability of different transport modes
- communication protocols
- problems that may occur and appropriate action that can be taken
- procedures for planning freight loading, including:
 - allowing for ease of inspection to meet delivery and customer requirements
 - chain of responsibility
 - planning available space efficiently
 - planning consolidation to ensure no damage to contents
 - understanding weight and volume of freight and consolidation requirements
- procedures for calculating volumes and dimensions

- procedures for completing consignment documentation
- procedures for identifying and evaluating information needed to facilitate freight consolidation
- relevant codes of practice and legislative requirements, including local and international freight regulations
- relevant work health and safety (WHS)/occupational health and safety (OHS), environmental and chain of responsibility procedures and regulations
- sources of information and documentation for consolidating freight.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
