Assessment Requirements for TLIA2011 Package goods

Release: 1

Assessment Requirements for TLIA2011 Package goods

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate hazards that may exist during work activities
- applying relevant legislation and workplace procedures
- checking operation of packaging equipment in terms of service schedule and standard operating procedures
- communicating and working effectively with others when packaging goods
- completing documentation related to work activities when packaging goods
- estimating the size, shape and special requirements of goods and loads
- implementing contingency plans when packaging goods
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring equipment performance when packaging goods
- monitoring work activities in terms of planned schedule
- operating and adapting to differences in equipment in accordance with standard operating procedures
- reading and interpreting instructions, procedures and labels relevant to packaging goods
- selecting and using relevant communications, computing equipment and materials when packaging goods
- selecting and using required personal protective equipment conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- Australian and international codes and regulations relevant to packaging goods
- documentation requirements for packaging goods, such as a workplan
- housekeeping standards and procedures
- operational work systems, equipment, management and site operating systems for packaging goods
- problems that may occur when packaging goods and appropriate action that can be taken to resolve these problems
- relevant WHS/OHS and environmental protection procedures and guidelines
- site layout and obstacles
- workplace procedures and policies for packaging goods.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
