Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- booking processes
- claims management
- delegation of authority workplace policies and procedures
- marketplace rules or trading terms for pooled equipment transfer requirements
- pooled equipment management system
- pooled equipment terms, including exchange, issue, dehire, IOU, transfer off, in transit days, transfer on, Pallet Transfer Authority, delay days, missing docket forms and non-conformance
- rejection processes and procedures
- required records
- workplace inventory management system
- workplace policies and procedures, including terms of conditions for pooled equipment.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
