Assessment Requirements for TLIB0043 Pack-up mobile crane tools and lifting equipment

Release: 1

Assessment Requirements for TLIB0043 Pack-up mobile crane tools and lifting equipment

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required actions to minimise, control or eliminate identified hazards
- applying specific crane legislation and workplace procedures
- checking condition of lifting equipment
- communicating effectively and working collaboratively with others
- identifying and correctly using lifting equipment, processes and procedures
- interpreting and following operational instructions and prioritising work
- operating and adapting to differences in lifting equipment in accordance with workplace procedures and manufacturer specifications
- reading and interpreting relevant instructions, workplace procedures, information and signs
- reporting and/or rectifying identified problems, faults or malfunctions promptly in accordance with regulatory requirements and workplace procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- application of relevant guidelines, codes of practice or other legislative requirements relating to the safe use of machinery and lifting equipment
- defects that may be identified when de-rigging a crane and appropriate actions that should be taken
- risk management consistent with the principle of hierarchy of risk control
- high risk work and mobile crane licence requirements
- mobile crane applications, capacities, configurations, safety hazards and control mechanisms
- operational procedures for crane crews concerning de-rigging of cranes, and packing and storing tools and lifting equipment
- relevant road rules, regulations, permit and licence requirements for mobile crane operation.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
