Assessment Requirements for TLIB0128 Conduct pre-movement checks on motive power units

Release: 2

Assessment Requirements for TLIB0128 Conduct pre-movement checks on motive power units

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Performance Criteria
- Minor statement changes in Performance Evidence
- Minor statement changes in Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- adapting to differences in motive power units and associated equipment and workplace procedures
- applying relevant workplace procedures
- communicating effectively with others when inspecting and preparing a motive power unit
- identifying job hazards and taking required actions to minimise, control or eliminate identified hazards including:
 - modifying activities depending on operational contingencies, risk situations and environments
- identifying who is responsible for authorising the movement of rolling stock
- interpreting and following instructions and prioritising work
- reading and interpreting relevant instructions, procedures, information and signs.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- documentation requirements when inspecting and preparing a motive power unit
- hazardous situations, risk control measures and workplace procedures when preparing and starting up a motive power unit
- procedures for conducting pre-movement checks prior to moving a motive power unit
- relevant work health and safety (WHS)/occupational health and safety (OHS) and rail safety requirements

- start-up requirements and workplace procedures for motive power units.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail corridor workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including workplace procedures, rules, codes of practice and operation manuals.
