## **Carry out vehicle inspection**

**Release: 1**

# Assessment Requirements for TLIB2004 Carry out vehicle inspection

## Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- carrying out vehicle inspections in accordance with workplace and manufacturer requirements
- communicating effectively with others
- completing documentation related to routine vehicle inspection
- reading and interpreting relevant instructions, procedures, information and manuals
- reporting and/or rectifying identified problems, faults or malfunctions promptly, in accordance with regulatory requirements and workplace procedures.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- duty of care requirements for routine vehicle inspections
- principles of systems operation on commercial vehicles including:
  - brakes
  - cooling systems
  - electrical systems
  - exhaust systems
  - fuel systems
  - steering systems
  - tyres
- problems that may occur during routine vehicle inspections and appropriate actions and solutions
- relevant reporting and documentation requirements

- relevant roads and traffic authority
- relevant work health and safety (WHS)/occupational health and safety (OHS) and pollution control procedures
- workplace procedures and manufacturer requirements for:
  - pre-operational inspection of a commercial vehicle
  - visual inspection
  - checking warning systems.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
