Assessment Requirements for TLIB2125 Apply awareness of tram or light rail track fundamentals

Release: 2

Assessment Requirements for TLIB2125 Apply awareness of tram or light rail track fundamentals

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- identifying job hazards and required action to minimise, control or eliminate identified hazards
- identifying tools and equipment required for a range of tram or light rail track maintenance tasks
- identifying track machines required for a range of tram or light rail track installation and maintenance tasks
- interpreting and following operational instructions
- modifying activities depending on operational contingencies, risk situations and environments.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- applicable work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations related to tram or light rail
- fundamentals of tram or light rail track and structures
- fundamentals of tram or light rail track layout and geometry
- rail electrical system related to tram or light rail infrastructure
- relevant safeworking system and workplace procedures
- tools and equipment used in tram or light rail track construction and repair
- tram or light rail track and overhead trolley components
- tram or light rail track terminology.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
