TLIB3126 Assist in the testing of heritage train braking systems

Release: 1

TLIB3126 Assist in the testing of heritage train braking systems

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to assist in testing heritage train braking systems, in accordance with organisational procedures and the requirements of relevant safeworking regulations and codes of practice.

It includes assisting with locomotive brake testing, train brake examination and releasing handbrake.

This unit is intended for people who will be assisting with testing brake systems on steam and/or heritage locomotives and trains under the direction of the driver.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

B – Equipment Checking and Maintenance

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Assist with locomotive brake testing

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.1 Under the direction of the driver, the application of the locomotive brake is observed to ensure it is within operational parameters

- 1.2 Work health and safety (WHS)/occupational health and safety (OHS) requirements, codes of practice, policies and procedures are identified and followed
 - 1.3 Hazards are identified, risks are assessed and control measures are implemented
 - 1.4 Work area is made safe for testing by ensuring locomotive is isolated and secured in accordance with workplace procedures
 - 1.5 Problems, faults or malfunctions are identified, responded to and/or reported in accordance with workplace procedures
- 2 Assist with train brake examination**
- 2.1 Under the direction of the driver, train brake is applied in accordance with organisational procedures
 - 2.2 Under the direction of the driver, train brake is released in accordance with organisational procedures
- 3 Apply and release handbrake**
- 3.1 Under the direction of the driver, handbrake is applied in accordance with organisational procedures
 - 3.2 Under the direction of the driver, handbrake is released in accordance with organisational procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIB3126A Assist in the testing of heritage train braking systems.
