TLIC0014 Drive taxi

Release: 1

TLIC0014 Drive taxi

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to drive taxi.

It includes maintaining systematic and efficient control of all taxi functions, monitoring traffic and road conditions, managing taxi condition and performance, and effectively managing hazardous situations. It also includes driving a taxi safely across a variety of driving contexts in compliance with relevant state/territory roads and traffic authority licence requirements and regulations for a commercial taxi.

Driving is performed with limited or no supervision, and with full accountability and responsibility for self and others in achieving the prescribed outcomes.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

C – Vehicle Operation.

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Drive taxi

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.1** Taxi is driven in accordance with road rules and manufacturer recommendations

- | | | |
|--|------------|--|
| | 1.2 | Driving hazards are identified and controlled through safe driving techniques |
| | 1.3 | Electronic equipment and systems are used in accordance with government regulations, manufacturer specifications and workplace policies and procedures |
| | 1.4 | Appropriate procedures and work health and safety (WHS)/occupational health and safety (OHS) policies are followed |
| 2 Monitor traffic and road conditions | 2.1 | Most efficient route of travel is taken by monitoring and anticipating traffic flows and conditions, road standards and other factors likely to cause delays or route deviations |
| | 2.2 | Traffic and road conditions are constantly monitored and acted on to enable safe operation |
| 3 Monitor and maintain taxi performance | 3.1 | Taxi performance is monitored through taxi pre-operational inspections and checks |
| | 3.2 | Performance and efficiency of taxi operation is monitored during use |
| | 3.3 | Defective or irregular performance or malfunctions are reported to relevant personnel in accordance with workplace policies and procedures |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the TLI Transport and Logistics Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIC2009 Drive taxi.

Assessment Requirements for TLIC0014 Drive taxi

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation, work health and safety (WHS)/occupational health and safety (OHS) practices and workplace policies and procedures
- applying safe driving techniques to avoid hazards
- driving a taxi, including:
 - managing engine power
 - parking, shutting down and securing taxi
 - positioning taxi
 - refuelling
 - starting taxi
 - steering and manoeuvring taxi
 - stopping taxi
- driving in typical road transport situations, including adjusting for weather conditions
- driving taxi in accordance with road rules and manufacturer recommendations
- monitoring and prioritising work activities
- monitoring performance of taxi, electronic equipment and systems and taking appropriate action, as required
- reporting identified problems, faults or malfunctions, security incidents and accidents in accordance with workplace policies and procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- driving hazards and related safe driving techniques
- factors that may cause traffic delays and diversions and related actions that can be taken
- pre-operational checks carried out on taxi and related actions
- procedures to be followed in an emergency or breakdown
- relevant state/territory legislation, permit and licence requirements
- relevant WHS/OHS policies and procedures
- safe and efficient driving techniques
- taxi security procedures and precautions
- workplace driving and operational instructions.

Assessment Conditions

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Practical driving aspects must be assessed in a vehicle typical of that used in industry, be roadworthy and driven in typical driving conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
