Assessment Requirements for TLIC0018 Operate a tip truck

Release: 1

Assessment Requirements for TLIC0018 Operate a tip truck

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include:

- completing tip truck operations safely, effectively and efficiently, and meeting all required outcomes on a minimum of three (3) separate occasions, including:
 - applying load cover
 - carrying out inspections and identifying faults
 - carrying out log-on, pre-start, start-up, park-up and shutdown procedures
 - obtaining and applying signage requirements
 - operating, steering, manoeuvring and positioning tip truck
 - organising work activities to comply with site requirements
 - processing written and/or digital records and reports
 - raising and lowering tipper body/tray smoothly
 - safely discharging load according to site conditions and work instructions
 - stopping and parking tip truck
- locating and applying relevant documentation, policies and procedures on at least one (1) occasion
- working effectively with others to undertake and complete tip truck operations to meet all required outcomes on at least one (1) occasion, including:
 - communicating clearly and concisely with others to receive and clarify work instructions
 - preparing for and organising work activities to meet all task requirements
 - using a range of communication techniques and aids to advise others of work activity and exclusion zones.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- load quantity calculations
- operational, maintenance and basic diagnostic procedures
- permit and access conditions, including where and when they apply
- recording and reporting procedures

- reporting faults in vehicles and ancillary equipment
- safety data sheet (SDS)/material safety data sheet (MSDS) and material handling methods
- safety requirements and emergency procedures, including powerline strike
- site isolation and traffic control responsibilities and authorities
- start-up and shutdown procedures
- tip truck types, characteristics, technical capabilities, limitations and suitability
- vehicle specifications and limitations, including:
 - allowable axle, gross vehicle and gross combination masses
 - dimensions
 - mass
 - volumes.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Practical driving aspects must be assessed in a tip truck vehicle typical of that used in industry.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
