Assessment Requirements for TLIC0021 Operate car carrier vehicle

Release: 1

Assessment Requirements for TLIC0021 Operate car carrier vehicle

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying correct techniques and methods for loading and unloading a car carrier
- applying eco-driving techniques
- applying precautions and required actions to minimise, control or eliminate identified hazards
- checking and replenishing fluids and carrying out lubrication processes
- communicating effectively with others
- completing relevant documentation
- identifying requirements for accepting correct vehicle for cartage
- interpreting and following operational instructions and prioritising work
- loading vehicles to ensure:
 - adjustments are made when loading commercial vehicles
 - overhang does not exceed 1.2 meters at front or rear of vehicle
 - they are loaded in reverse sequence of planned unloading sequence
 - they do not touch each other during transit
- making accurate estimates in a range of situations
- monitoring and anticipating traffic hazards and taking appropriate action
- monitoring performance of vehicle, trailers and equipment and taking appropriate action as required
- operating and adapting to differences in equipment in accordance with operating procedures
- reading and interpreting relevant procedures, information and signs
- selecting and using required personal protective equipment (PPE) conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards
- servicing vehicle and its equipment in terms of maintenance schedule and standard operating procedures (SOPs)
- working collaboratively with others
- working with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- customer requirements when delivering cars
- driving hazards and related defensive driving techniques
- efficient driving techniques and eco-driving considerations
- engine power management and safe driving strategies
- factors involved in trip preparation
- factors that may cause traffic delays and diversions, and related action that can be taken
- heavy vehicle handling procedures
- load restraint guide
- loading and unloading techniques for car carrying
- relevant legislation and workplace procedures, including:
 - National Transport Commission (NTC) Restraint Load Guide
- WHS/OHS operational procedures
- workplace documentation
- workplace driving and operational instructions.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises and case studies
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including legislation, regulations, NTC Load Restraint Guide, codes of practice, workplace procedures and operation manuals.

A simulator is not suitable for final assessment of this unit of competency.
