Assessment Requirements for TLIC3086 Operate a multi-lift collection vehicle

Release: 1

Assessment Requirements for TLIC3086 Operate a multi-lift collection vehicle

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying appropriate techniques for loading and unloading vehicle
- applying precautions and required action to minimise, control or eliminate identified hazards
- identifying, loading and transporting product streams in accordance with organisational, manufacturer and legislative requirements
- interpreting and following operational instructions and prioritise work
- covering/tarping product bins manually
- monitoring and anticipating traffic hazards and taking appropriate action
- monitoring performance of vehicle and equipment, and taking appropriate action as required
- operating a multi-lift collection vehicle across three different workplace job functions
- operating and adapting to differences in equipment in accordance with standard operating procedures
- operating vehicle cabin functions correctly
- reading, interpreting and following relevant instructions, procedures, information and signs
- using correct manual handling techniques when operating vehicle and/or product containers
- working collaboratively with others.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- customer requirements when picking up product or delivering product to a product collection facility
- factors involved in trip preparation
- factors that may cause traffic delays and diversions
- relevant legislation, and organisational and manufacturer procedures for transporting product in the vehicle
- relevant state/territory roads and traffic authority road rules, regulations, permits and licence requirements
- safe pickup and delivery of product to and from site
- vehicle loading and unloading procedures
- workplace documentation
- workplace driving and operational instructions.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, load restraint guide, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.

Use of a simulator is not suitable for final assessment of this unit of competency.
