Assessment Requirements for TLID0006

Move materials mechanically using automated equipment

Release: 1

Assessment Requirements for TLID0006 Move materials mechanically using automated equipment

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying workplace procedures when using automated equipment
- following relevant instructions, workplace procedures and signs
- monitoring performance of automated equipment and taking action in accordance with workplace procedures
- reporting automated equipment faults in accordance with workplace procedures
- undertaking operational checks of automated equipment
- using personal protective equipment (PPE) according to workplace procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- characteristics, capabilities and limitations of automated equipment
- hazards when using automated equipment and related risk control measures
- problems that may occur and appropriate actions that can be taken to resolve these problems
- relevant work health and safety (WHS)/occupational health and safety (OHS) procedures and regulations
- workplace policies and procedures for using automated equipment.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational

situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- relevant materials, tools, automated equipment and PPE
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
