TLID0014 Load and unload explosives/dangerous goods

Release: 1

TLID0014 Load and unload explosives/dangerous goods

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to load and unload explosives and/or dangerous goods.

It includes identifying explosives and/or dangerous goods, loading and unloading explosives and/or dangerous goods using appropriate equipment, securing and protecting vehicle load, and checking vehicle to ensure load is secure and vehicle is marked in accordance with regulatory requirements in a range of operational situations, the relevant Australian and state and/or territory regulations, including current Australian Dangerous Goods (ADG) Code, current Australian Code for the Transport of Explosives by Road and Rail (AE Code), and mass and loading regulations.

Work is performed under limited or minimum supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

D – Load Handling

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Prepare to load and

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Explosives and/or dangerous goods are identified, and their

- unload vehicle** characteristics are taken into account in accordance with relevant emergency procedures when determining appropriate handling, loading and storage procedures
- 1.2** Job hazards are identified and required actions taken to minimise, control or eliminate identified hazards
 - 1.3** Compatibility of explosives and/or dangerous goods is taken into account when assembling and segregating cargo for loading
 - 1.4** Check vehicle is suitable to transport explosives/dangerous goods according to ADG and/or AE Code
 - 1.5** Vehicle and/or loading equipment is checked to ensure it is suitable to handle and/or carry load
- 2 Load/unload vehicle**
- 2.1** Vehicle is loaded/unloaded in accordance with workplace procedures and current ADG and/or AE Code, as required
 - 2.2** Load is segregated according to class and subsidiary risk, and load distribution is checked in accordance with workplace procedures, relevant mass and loading regulations, and current ADG and/or AE Code, as required
 - 2.3** Personal protective equipment (PPE) is used during loading/unloading operations, as required, for type of explosives and/or dangerous goods concerned
 - 2.4** Emergency procedures are followed in an incident or accident when loading or unloading explosives and/or dangerous goods
- 3 Secure and protect vehicle load**
- 3.1** Vehicle load is secured using correct load restraint and protection equipment for different loads, vehicles and carriage conditions concerned
 - 3.2** Load is protected in accordance with legal and workplace safety requirements
 - 3.3** Load distribution is checked to ensure it is even, legal and within safe working capacity of vehicle
 - 3.4** Vehicle is clearly marked and/or placarded to indicate carriage of explosives and/or dangerous goods in accordance with government regulations and workplace procedures
- 4 Check vehicle**
- 4.1** Loaded vehicle is inspected and checked to ensure load weight and dimensions are within vehicle safe carrying capacity and equipment capability
 - 4.2** Loaded vehicle is checked to ensure it can be safely parked and

secured

- 4.3 Dangerous goods declaration and required transportation documentation for cargo is completed in accordance with workplace procedures and regulatory requirements

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the TLI Transport and Logistics Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLID2016 Load and unload explosives/dangerous goods.

Assessment Requirements for TLID0014 Load and unload explosives/dangerous goods

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required actions to minimise, control or eliminate identified hazards
- completing relevant documentation
- estimating size, shape and special requirements of loads
- identifying and interpreting containers and goods coding, markings and emergency information panels for mode of transport and/or storage selected
- identifying load characteristics, loading equipment and related practices
- identifying load label in accordance with identified classification and subsidiary risk information
- identifying markings and/or placards for vehicle in accordance with relevant regulatory requirements
- loading and unloading explosives and/or dangerous goods safely in accordance with workplace procedures and current Australian Dangerous Goods (ADG) Code and/or current Australian Code for the Transport of Explosives by Road and Rail (AE Code) requirements
- reading, interpreting and following relevant instructions, procedures, information and signs
- segregating, distributing, and securing load for safe transport in accordance with regulations and current ADG and/or AE Code requirements
- selecting and using required personal protective equipment (PPE) conforming to industry and work health safety (WHS)/occupational health and safety (OHS) standards
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- characteristics of various classes of explosives and dangerous goods relevant to handling and transport
- compatibility of various types of explosives and dangerous goods
- housekeeping standards and procedures
- methods of placarding or marking a vehicle carrying explosives and dangerous goods

- methods of securing a load on a vehicle
- relevant Australian explosives and dangerous goods codes and state and/or territory regulations for identifying, handling, and marking explosives and/or dangerous goods
- relevant state and/or territory mass and loading regulations
- risks and hazards when loading, unloading, and handling explosives and/or dangerous goods, and related precautions to control the risk
- WHS/OHS procedures and guidelines concerning lifting and moving loads.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including legislation, regulations, ADG Code and/or AE Code, codes of practice, workplace procedures and operation manuals.
