Assessment Requirements for TLID0017

Operate container side lifter

Release: 1

Assessment Requirements for TLID0017 Operate container side lifter

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- conducting a pre-operational check, including:
 - checking all levers and operational gauges on ancillary equipment
 - checking and replenishing fluids and carrying out lubrication processes during work activities
 - checking operation of vehicle lights and indicators
 - visually checking vehicle and ancillary equipment
- completing relevant documentation
- following workplace procedures and manufacturer specifications
- implementing contingency plans
- interpreting and following operational instructions and prioritising work
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring performance of vehicle, trailers and equipment and taking appropriate actions, as required
- operating and adapting to differences in equipment in accordance with operating procedures
- reading and interpreting relevant instructions, procedures, information and signs
- relocating a container from one vehicle to another with container at $\geq 60\%$ capacity
- relocating a container using a side lifter from ground to vehicle with container at $\geq 60\%$ capacity
- relocating a container using a side lifter from vehicle to ground with container at $\geq 60\%$ capacity
- servicing vehicle and equipment in terms of maintenance schedule and standard operating procedures (SOPs)
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- efficient driving techniques
- engine power management and safe driving strategies
- pre-operational checks carried out on side lifter and ancillary equipment
- relevant national heavy vehicle legislation and regulatory requirements
- relevant personal protective equipment (PPE) for side lifter operations
- relevant state or territory road traffic authority road rules, regulations, permit and licence requirements
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations
- side lifter vehicle handling procedures
- workplace driving and operational instructions.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises and case studies
- a container at $\geq 60\%$ capacity as a minimum requirement
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.

A simulator is not suitable for final assessment of this unit of competency.
