Assessment Requirements for TLID3015

Identify and label explosives/dangerous goods

Release: 3

Assessment Requirements for TLID3015 Identify and label explosives/dangerous goods

Modification History

Release 3. This is the third release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor grammatical change to unit Application
- Minor grammatical change to Knowledge Evidence.

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor changes to unit Application
- Minor changes to Performance Criteria
- Minor changes to Performance Evidence
- Minor changes to Knowledge Evidence
- Minor changes to Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required actions to minimise, control or eliminate identified hazards
- completing relevant documentation
- correctly marking and/or labelling explosives and dangerous goods
- handling explosives and/or dangerous goods in accordance with regulatory requirements, codes, National Transport Commission (NTC) Load Restraint Guide and workplace policy, as required
- identifying explosives and dangerous goods from labels in accordance with regulatory requirements and practices
- identifying hazards from labels of explosives and dangerous goods
- interpreting and following operational instructions and prioritising work
- interpreting safety data sheets (SDS)/material safety data sheets (MSDS), containers and goods coding, markings and other information describing explosives and dangerous goods, including emergency information panels for mode of transport and/or storage selected
- locating, interpreting, and applying relevant codes and regulations
- reading and interpreting relevant instructions, procedures, information and signs
- selecting and using required personal protective equipment (PPE) conforming to industry and work health safety (WHS)/occupational health and safety (OHS) standards

- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- characteristics of explosives and dangerous goods relevant to handling and transport
- compatibility of various types of explosives and dangerous goods
- housekeeping standards and procedures
- relevant Australian and state and/or territory regulations and codes for identifying and labelling explosives and dangerous goods, including the current Australian Dangerous Goods (ADG) Code, Australian Code for the Transport of Explosives by Road and Rail (AE Code) and Globally Harmonised System of Classification and Labelling of Chemicals (GHS)
- risks and hazards when loading, unloading, and handling explosives and dangerous goods, and related precautions to control the risk
- WHS/OHS procedures and guidelines concerning lifting and moving loads
- regulatory procedures for identifying and labelling explosives and dangerous goods.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation including legislation, regulations, current ADG Code and/or AE Code, codes of practice, GHS, workplace procedures and operation manuals.
