TLID3015 Identify and label explosives/dangerous goods

Release: 3

TLID3015 Identify and label explosives/dangerous goods

Modification History

Release 3. This is the third release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor grammatical change to unit Application
- Minor grammatical change to Knowledge Evidence.

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor changes to unit Application
- Minor changes to Performance Criteria
- Minor changes to Performance Evidence
- Minor changes to Knowledge Evidence
- Minor changes to Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to identify and label explosives and/or dangerous goods.

It includes assessing, handling and labelling explosives and/or dangerous goods, and complying with all required documentation in accordance with relevant Australian state/territory regulators and authorities concerned with the carriage of explosives and dangerous goods.

This includes the current Australian Dangerous Goods (ADG) Code, Australian Code for the Transport of Explosives by Road and Rail (AE Code), Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and workplace procedures.

Work is performed under limited or minimum supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

D – Load Handling

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1 Assess explosives/dangerous goods	1.1 Load is checked for explosives and/or dangerous goods in accordance with relevant codes and government regulations
	1.2 Types of explosives and/or dangerous goods are identified from labels, current ADG and/or AE Code declarations and placarding, in accordance with workplace procedures, and all required actions are taken to ensure compliance with relevant government regulations and current ADG and/or AE Code, as required
	1.3 Load hazards are identified from labels and safety data sheets (SDS)/material safety data sheets (MSDS) and required actions taken to minimise, control or eliminate identified hazards
2 Handle explosives/dangerous goods	2.1 Identified explosives and/or dangerous goods are handled and loaded/unloaded in accordance with regulatory requirements, codes, National Transport Commission (NTC) Load Restraint Guide and workplace procedures
	2.2 Appropriate personal protective equipment (PPE) is used when handling explosives and/or dangerous goods in accordance with class, subsidiary risk and SDS/MSDS information
	2.3 Identified hazards posed by explosives and/or dangerous goods concerned are taken into account when handling different types of load
	2.4 When loading/storing explosives and/or dangerous goods, segregation procedures are followed in accordance with class and subsidiary risk information
3 Label explosives/dangerous goods	3.1 All packages and/or containers are labelled with class and subsidiary risk information, in accordance with current ADG Code and/or AE Code and workplace procedures, as required

- 3.2** Dangerous goods declaration is included with manifest and other shipping documents
 - 3.3** Vehicles carrying explosives and/or dangerous goods are placarded in accordance with current ADG Code and/or AE Code, as required
- 4 Complete documentation**
 - 4.1** Required transport documents are confirmed
 - 4.2** All required transport documents are completed in accordance with current ADG Code and/or AE Code and workplace procedures, as required

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the TLI Transport and Logistics Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLID3015A Identify and label explosives/dangerous goods.
