Assessment Requirements for TLIE0005 Undertake rigger/dogger and operators communications

Release: 1

Assessment Requirements for TLIE0005 Undertake rigger/dogger and operators communications

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- communicating effectively with others during a lift
- identifying and correctly using equipment, processes and procedures
- interpreting and following operational instructions
- interpreting relevant instructions, procedures, regulations, information and signals
- operating and adapting to differences in communications equipment and conditions in accordance with workplace procedures
- operating electronic communications equipment to required protocol
- reporting problems related to communication equipment in accordance with workplace procedures
- using personal protective equipment (PPE) in accordance with workplace procedures
- working collaboratively with others during a lift.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- communications systems used during a lift
- methods used to signal movement of the load during a lift
- problems that may occur when communicating during a lift and associated actions that can be taken to address these problems
- risks and hazards involved in crane operations and associated actions that can be taken to eliminate or minimise the risk
- workplace procedures concerning communication between a rigger or dogger and a crane operator before and during a lift.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- relevant and appropriate materials, tools, communication equipment and PPE
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
