Assessment Requirements for TLIF0019 Follow vehicle protocols for loading and unloading

Release: 1

Assessment Requirements for TLIF0019 Follow vehicle protocols for loading and unloading

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at one occasion and include:

- adapting to differences in equipment used for immobilisation or isolation
- applying precautions and actions to minimise, control or eliminate hazards that may exist during work activities
- communicating and working effectively with others when administering vehicle protocols for loading and unloading
- completing documentation related to the administering of vehicle protocols for loading and unloading
- implementing contingency plans
- monitoring and prioritising work activities in terms of planned schedule
- operating communication equipment to required protocols
- planning own work, including predicting consequences and identifying improvements
- interpreting and following instructions and procedures relevant to administering vehicle protocols for loading and unloading
- reporting and applying suitable controls to identified problems promptly in accordance with regulatory requirements and workplace procedures
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- housekeeping standards and workplace procedures
- operational workflow within a loading and unloading area
- problems that may occur when preparing for, during, and after loading and unloading activities in an operational environment
- regulations relevant to administering vehicle protocols for loading and unloading vehicles
- relevant legislation, workplace procedures and policies for administering vehicle protocols for loading and unloading vehicles

- traffic management plan
- types of equipment used in administering vehicle protocols for loading and unloading vehicles.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
