Assessment Requirements for TLIF2019

Ensure a safe on-board passenger and working environment

Release: 2

Assessment Requirements for TLIF2019 Ensure a safe on-board passenger and working environment

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- communicating effectively with others
- making appropriate judgements about the relative urgency of hazard reports
- operating and adapting to differences in equipment in accordance with operating procedures
- reading and interpreting relevant instructions, procedures, information and signs
- reporting and/or rectifying identified problems promptly, in accordance with regulatory requirements and workplace procedures
- selecting and safely using relevant equipment and materials during work activities
- selecting and using required personal protective equipment (PPE) conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards
- using correct manual handling procedures
- working collaboratively with others
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment
- writing and preparing safety incident reports and other documents required within workplace activities.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- communication and negotiation requirements
- documentation and record requirements
- emergency procedures
- equipment, and materials used during work activities, and precautions and procedures that

should be followed in their use

- first aid procedures
- hazards that may occur in the workplace and action that can be taken to control and minimise the risks involved
- location of safety equipment and procedures for its use
- manual handling procedures
- PPE and procedures for its use
- regulations and codes of practice relevant to work activities including the Australian Dangerous Goods (ADG) Code
- relevant WHS/OHS and environmental protection procedures and guidelines
- workplace procedures and policies related to ensuring a safe workplace.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
