Assessment Requirements for TLIF2062 Apply awareness of safeworking rules and regulations

Release: 2

Assessment Requirements for TLIF2062 Apply awareness of safeworking rules and regulations

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating effectively with others applicable to rail operations concerned
- completing documentation related to safeworking requirements applicable to rail functions concerned
- implementing contingency plans
- interpreting and following operational instructions and prioritising work
- modifying activities depending on operational contingencies, risk situations and environments
- operating electronic communications equipment to required protocol
- reading and interpreting relevant rules, regulations and instructions applicable to rail operations concerned
- recognising problems and hazards that may arise during rail operations and taking appropriate action
- working collaboratively with others to fulfil safeworking requirements applicable to rail operations concerned.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- applicable state/territory legislated rail safety requirements, relevant regulations, nationally approved compliance codes and/or guidelines
- communication protocols as they relate to the functions of the occupation concerned
- emergency management plan
- rail terminology as defined in applicable safeworking system
- safeworking system rules and workplace procedures.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation with terminology as defined by the relevant Rail Transport Operator safeworking system including workplace procedures, regulations, rules and codes of practice.
