Assessment Requirements for TLIF2097

Use audible track warning devices

Release: 2

Assessment Requirements for TLIF2097 Use audible track warning devices

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Grammatical abbreviation removed
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- accessing and transporting, placing, removing and disposing of audible track warning devices
- communicating effectively with individuals and groups
- completing documentation
- complying with site safety plans, work health and safety (WHS)/occupational health and safety (OHS) regulations and rail safety regulatory requirements
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- reading and interpreting organisational procedures for placing and removing audible track warning devices.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- organisational procedures for:
 - lost or stolen audible track warning device
 - placing and removing audible track warning device
- relevant audible track warning devices and/or railway track signal workplace procedures for storing and transporting dangerous goods system
- relevant rail danger zones
- relevant rail safety, WHS/OHS and environmental procedures and regulations.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in rail workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, audible track warning device, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including workplace procedures, regulations, rail network standards, dangerous goods systems, codes of practice and operation manuals.
