**Assessment Requirements for TLIF2106
Respond to emergencies and abnormal
situations when driving medium/heavy
on-track vehicles**

Assessment Requirements for TLIF2106 Respond to emergencies and abnormal situations when driving medium/heavy on-track vehicles

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant safety management system actions and workplace safeworking procedures
- communicating effectively with Network Control Officer and/or Protection Officer
- communicating effectively with relevant personnel
- completing incident reports
- explaining possible responses to identified emergency or abnormal situation
- identifying job hazards and taking required actions to minimise, control or eliminate identified hazards
- implementing contingency plans
- reading and interpreting relevant instructions, procedures, information and signs
- working collaboratively with others.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- hazards that may exist when responding to emergencies and abnormal situations and ways of controlling the risks involved
- organisational procedures for using communications systems for on-track vehicle operation
- principles of effective communication
- relevant rail danger zones
- relevant rail safety, work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations
- safety management plan.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail corridor workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation and terminology as defined by the relevant Rail Infrastructure Manager including rules, workplace procedures, regulations, codes of practice and operation manuals.
