Assessment Requirements for TLIF3085 Apply local incident response procedures

Release: 2

Assessment Requirements for TLIF3085 Apply local incident response procedures

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor word change in Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying incident response procedures
- applying relevant legislation and workplace procedures
- carrying out incident response activities
- collaborating with others
- communicating clearly and effectively with others
- completing follow-up actions
- completing relevant documentation
- interpreting and following operational instructions and prioritising work
- operating electronic communications equipment to required protocol
- reading and interpreting relevant instructions, procedures and information
- responding to an incident.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- emergency response management plan
- layout of area under control and potential obstacles for responding parties
- organisational procedures and policies for responding to incidents, including procedures for responding to and providing practical assistance where required
- procedures for contacting emergency services personnel and other relevant stakeholders
- relevant legislation, regulations, codes of practice, procedures and guidelines concerning incident response
- relevant work health and safety (WHS)/occupational health and safety (OHS) legislation,

- regulations, codes of practice, procedures and guidelines
- risks, hazards and related precautions to control risk
- types of incidents that can occur and appropriate actions to be taken in each case.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including emergency management plan, workplace procedures, regulations, codes of practice and operation manuals.
