Assessment Requirements for TLIF3096

Carry out emergency response to a dangerous goods incident

Release: 2

Assessment Requirements for TLIF3096 Carry out emergency response to a dangerous goods incident

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor changes to unit Application
- Minor changes to Performance Criteria
- Minor changes to Performance Evidence
- Minor changes to Knowledge Evidence
- Minor changes to Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying own responsibilities in accordance with workplace and emergency procedures
- collecting evidence of:
 - incident details
 - load documentation
 - workplace documentation
- identifying and describing an incident clearly
- re-stowing emergency equipment
- selecting and using personal protective equipment (PPE) safely and effectively under emergency conditions
- using effective communication skills during emergencies
- using emergency equipment, including:
 - emergency shutdown controls
 - evacuation controls
 - eye wash equipment and safety showers
 - fire-extinguishers
 - spill control equipment
- using PPE and safety measures, including:
 - chemical resistant gloves
 - evacuation controls

- high visibility clothing and safety vest
- intrinsically safe, full cover protective clothing
- safety glasses
- safety headwear and footwear
- two-way radio.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- applicable legislative and workplace procedures and codes
- appropriate PPE
- current codes, including:
 - Australian Dangerous Goods (ADG) Code
 - Australian Code for the Transport of Explosives by Road and Rail (AE Code)
- documents and records, including
 - emergency information procedure (EIP)
 - emergency procedures guide (EPG)
 - environmental protection legislation and regulations
 - fatigue management regulations
- emergency equipment operating characteristics, limitations, hazards, precautions, procedures and general care
- general emergency priorities and strategies
- hazard analysis techniques
- hazards and precautions necessary during control activities
- survival, rescue and recovery procedures
- tactics for safely handling emergencies involving dangerous goods including:
 - transport emergency response plan (TERP)
 - transport regulations as they apply to the enterprise, including local authority regulations and procedures
 - work health and safety (WHS)/occupational health and safety (OHS) legislation
 - workplace policies and procedures
- workplace emergency procedures, including:
 - relevant Australian Standards and certification requirements
 - relevant internal data entry books, including logbooks, data sheets and load sheets
 - relevant state and/or territory road rules and roads and traffic authority driving regulations and licence or permit requirements for operating heavy vehicles on unsealed roads
 - workplace operating procedures.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including legislation, regulations, TERP, codes of practice, workplace procedures and operation manuals.
