Assessment Requirements for TLIF4065 Ensure compliance with Australian Dangerous Goods Code

Release: 2

Assessment Requirements for TLIF4065 Ensure compliance with Australian Dangerous Goods Code

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor changes to unit Application
- Minor changes to Performance Criteria
- Minor changes to Performance Evidence
- Minor changes to Knowledge Evidence
- Minor changes to Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- complying with applicable regulations and current Australian Dangerous Goods (ADG) Code
- identifying hazards and applying precautions and required actions to minimise, control or eliminate identified hazards
- implementing contingency plans, particularly to deal with any potential ADG Code breaches
- monitoring work activities of team members in terms of planned schedule
- reading and interpreting current ADG Code, related documents and procedures, and information and materials provided as guidance notes
- working collaboratively and communicating effectively with others to ensure compliance with work health and safety (WHS)/occupational health and safety (OHS) requirements, and current ADG Code.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- relevant sections of national and state/territory regulatory requirements and codes of practice, including:
 - current ADG Code, conditions and duty holders to whom it applies
 - WHS/OHS and environmental procedures and regulations relevant to the current ADG Code

- workplace procedures for:
 - emergency management plan
 - managing and controlling hazardous situations when carrying out work activities
 - safe transfer and storage of dangerous goods and hazardous materials
 - transport emergency response plan (TERP).

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, current ADG Code, TERP, codes of practice, workplace procedures and operation manuals.
