Assessment Requirements for TLIG0003

Work effectively with others in a team

Release: 1

Assessment Requirements for TLIG0003 Work effectively with others in a team

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating and working effectively with others when completing work activities
- completing team activities to the required outcomes
- discussing and/or rectifying identified misunderstandings and problems promptly using appropriate strategies in accordance with regulatory requirements and workplace procedures
- interpreting and following operational instructions and prioritising work within the team
- modifying team activities depending on operational contingencies, risk situations and environments.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- basic principles of teamwork
- effective communication skills required for working within a team
- relevant workplace standards and procedures
- typical misunderstandings and problems that occur in the workplace and possible solutions
- workplace structures and the roles and responsibilities of team members.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
