Assessment Requirements for TLIH0004

Identify major roads, services and attractions

Release: 1

Assessment Requirements for TLIH0004 Identify major roads, services and attractions

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- communicating effectively with others when identifying and locating major roads, services and attractions
- identifying and correctly using maps and other information about the location and features of roads, services and attractions
- interpreting and following instructions
- locating identified roads, services and attractions on a map
- operating technology when locating roads, services and attractions
- reading and interpreting relevant instructions, workplace policies and procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- information for locating roads, services and attractions, including:
 - bus and emergency lane usage
 - entry and access points to major road systems
 - location of city centre streets, major buildings and traffic flows
 - location of main hotels, motels and tourist attractions in a specified area
 - location of metropolitan suburbs
 - main arterial roads
 - most appropriate routes for entering and exiting a city centre
 - restrictions to traffic movement at major intersections
 - roads and suburbs connecting with freeways and transport interchanges, terminals, jetties, ports and stations
- workplace procedures for identifying and locating roads, services and attractions.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
