Assessment Requirements for TLIL0014 Plan for logistics operations

Release: 1

Assessment Requirements for TLIL0014 Plan for logistics operations

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- amending and documenting operational plans as directed
- analysing performance data regularly, developing potential contingencies and reviewing to ensure compliance
- developing contingency plans for identified risks
- developing criteria for measuring performance indicators against achievements
- establishing and confirming communication pathways within agreed timelines
- executing plans according to organisational policies and procedures
- identifying and applying relevant legislation and checking for regulatory compliance according to business needs
- identifying and obtaining sources of relevant information for implementing operational plans
- identifying, establishing and maintaining participation and contribution to logistics activities
- identifying, reporting and resolving relevant logistics risks
- monitoring and regularly reviewing plans for compliance
- monitoring performance measures to ensure they address key aspects of organisational performance and meet business and stakeholder interests
- reporting strategic performance to stakeholders in a transparent manner and in accordance with compliance requirements
- reviewing and comparing plans against historical data
- reviewing information for currency.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- communication protocols
- contingency plans for supply issues in logistics operations
- methods for data selection, currency and relevance
- relevant legislation and regulatory requirements applicable to logistics operations and compliance

- relevant organisational policies and procedures for logistics operations
- stakeholder requirements.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
