Assessment Requirements for TLIL2060 Complete induction to the transport industry

Release: 2

Assessment Requirements for TLIL2060 Complete induction to the transport industry

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Application reworded and Assessment Conditions updated.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant guidelines for using equipment as it applies to the driver job role
- applying relevant legislation as it applies to driver job role
- explaining contract arrangements for different job roles
- explaining workplace policies and procedures, regulations, products and services relating to the driver job role
- identifying and correctly using equipment, processes and procedures
- reading and interpreting instructions, procedures, information and signs relevant to the driver job role.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- customer service standards and procedures
- depot/company locations
- emergency procedures
- key elements of industrial relations relevant to the transport industry
- personal protective equipment (PPE) and instructions for its use
- relevant legislation for driving role
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations
- requirements of customers with specific needs
- routine workplace documentation and record keeping procedures and requirements

- sources of information and documentation for the transport industry
- workplace hazards and related hazard minimisation procedures
- workplace procedures, codes of practice, standards and duty of care requirements as they apply to the transport industry
- workplace products and services, and their features
- workplace structures, roles and responsibilities of authority system and contacts.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
