TLIL4075 Implement and amend daily train plan

Release: 2

TLIL4075 Implement and amend daily train plan

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor word changes to PC 2.5 and PC 2.6
- Minor word changes to Performance Evidence
- Minor word changes to Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

It includes implementing daily train movements, monitoring and making amendments to the daily train plan as required, and maintaining required documentation.

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

Work involves the application of routine operational principles and procedures when planning and implementing daily train operations across a variety of operational workplace contexts within the Australian rail system.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

L – Resource Management

Unit Sector

Rail sector.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Implement daily train plan	1.1	Rail traffic movements are checked to ensure they are achievable in accordance with daily train plan and organisational procedures
		1.2	Hazards are identified, risks assessed and control measures implemented
		1.3	Resources are confirmed in accordance with daily train plan and workplace procedures as required
		1.4	Required train notices and instructions are prepared and issued in accordance with daily train plan and organisational procedures
2	Amend daily train plan	2.1	Status of daily train plan is determined based on proposed rail traffic movements and track possessions/works
		2.2	Daily train plan is amended, as required, to accommodate other rail traffic movement priorities
		2.3	Contingency plans are developed in accordance with organisational procedures
		2.4	Information relating to rail traffic movement within the area of control is obtained and analysed
		2.5	Amendments to daily train plans are received, validated and applied in accordance with organisational procedures
		2.6	Resources to implement planned rail traffic movements and contingency plans are identified in accordance with organisational requirements
		2.7	Documentation is amended, compiled and recorded in accordance with organisational policies and procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to TLIL4075A Implement and amend daily train plan.

Assessment Requirements for TLIL4075 Implement and amend daily train plan

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor word changes to PC 2.5 and PC 2.6
- Minor word changes to Performance Evidence
- Minor word changes to Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant safeworking systems and workplace procedures
- communicating with others when implementing and amending daily train plans
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- implementing daily train movements systematically
- maintaining required documentation
- monitoring and making amendments to the daily train plan
- reading and interpreting relevant instructions, procedures and information
- using appropriate infotechnology when amending daily train plan
- working collaboratively with others when implementing and amending daily train plans.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- familiarity with yards, depots and, where applicable, station workings
- organisational procedures for planning and controlling train operations
- restrictions relating to loads and conditions
- route restrictions, geography and limitations
- safeworking and signalling system requirements, where applicable
- timetabling and train planning protocols
- train control diagrams and graphing.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, rail industry standards, codes of practice and operation manuals.
