TLIL4075 Implement and amend daily train plan

Release: 2

TLIL4075 Implement and amend daily train plan

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor word changes to PC 2.5 and PC 2.6
- Minor word changes to Performance Evidence
- Minor word changes to Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

It includes implementing daily train movements, monitoring and making amendments to the daily train plan as required, and maintaining required documentation.

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

Work involves the application of routine operational principles and procedures when planning and implementing daily train operations across a variety of operational workplace contexts within the Australian rail system.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

L – Resource Management

Unit Sector

Rail sector.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Implement daily train plan	1.1	Rail traffic movements are checked to ensure they are achievable in accordance with daily train plan and organisational procedures
		1.2	Hazards are identified, risks assessed and control measures implemented
		1.3	Resources are confirmed in accordance with daily train plan and workplace procedures as required
		1.4	Required train notices and instructions are prepared and issued in accordance with daily train plan and organisational procedures
2	Amend daily train plan	2.1	Status of daily train plan is determined based on proposed rail traffic movements and track possessions/works
		2.2	Daily train plan is amended, as required, to accommodate other rail traffic movement priorities
		2.3	Contingency plans are developed in accordance with organisational procedures
		2.4	Information relating to rail traffic movement within the area of control is obtained and analysed
		2.5	Amendments to daily train plans are received, validated and applied in accordance with organisational procedures
		2.6	Resources to implement planned rail traffic movements and contingency plans are identified in accordance with organisational requirements
		2.7	Documentation is amended, compiled and recorded in accordance with organisational policies and procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to TLIL4075A Implement and amend daily train plan.
