Assessment Requirements for TLIO0004 Maintain security of railway property and revenue

Release: 1

Assessment Requirements for TLIO0004 Maintain security of railway property and revenue

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant workplace procedures
- communicating, working, consulting and negotiating effectively with others when maintaining the security of railway property and revenue
- completing documentation related to the security of railway property and revenue
- identifying job hazards and taking required actions to minimise, control or eliminate identified hazards
- interpreting and following operational instructions and prioritising work
- maintaining point-of-sale and payment device
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring performance of security equipment and taking appropriate actions
- monitoring work activities in terms of planned schedule
- reporting and/or rectifying identified problems promptly in accordance with regulatory requirements and workplace procedures
- selecting and using relevant equipment and materials
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- revenue handling procedures
- communication and negotiation requirements for maintaining the security of railway property and revenue
- equipment and materials used when maintaining the security of railway property and revenue, and precautions and procedures that should be followed in their use
- insurance and public liability implications
- point-of-sale and payment device
- problems that may occur when maintaining the security of railway property and revenue, and appropriate actions that can be taken to resolve these problems
- workplace procedures and policies for maintaining the security of railway property and revenue, including:
 - reporting and recording requirements
 - regulations and codes of practice
 - security management plan
 - work health and safety (WHS)/occupational health and safety (OHS) procedures and guidelines
- workplace security layout, systems and requirements.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
