TLIO3007 Undertake emergency response action to a security threat

Release: 1

TLIO3007 Undertake emergency response action to a security threat

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to undertake emergency response action to a security threat. Work must be carried out in accordance with sections of relevant state/territory authority regulations or for secure delivery of valuables, secured products, documents and materials, within the transport and logistics industry.

It includes selecting emergency actions to be applied, maintaining communications and reporting the incident, in accordance with established procedures.

Work is performed under general or limited supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

O – Security

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Select emergency actions to be applied

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.1 Threats or potential threats are recognised
- 1.2 Hazards are identified and required action is taken to

		minimise, control or eliminate identified hazards
	1.3	Agency/branch/base and/or police are alerted to potential security threat and all relevant details and requests for supportive action are detailed, as required
	1.4	Range of emergency actions are identified and analysed
	1.5	Security threat and appropriate emergency plans are matched
	1.6	Emergency actions are invoked in accordance with emergency procedures and in consideration of own safety, members of the public and the consignment
	1.7	Emergency actions are modified consistent with changes within the emergency environment
2	Maintain communications	
	2.1	Communication is maintained with emergency services worker/s, agency/branch/base and relevant agencies/personnel in accordance with workplace and emergency procedures
	2.2	Information is conveyed in a clear, concise and accurate manner
3	Report incident	
	3.1	Reporting arrangements are completed in accordance with workplace procedures
	3.2	Police or other emergency services are provided with reports as required

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIO3007A Undertake emergency response action to a security threat.

Assessment Requirements for TLIO3007 Undertake emergency response action to a security threat

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant agreements, codes of practice or other legislative requirements
- applying relevant legislation and workplace procedures
- communicating effectively with others
- completing relevant documentation
- identifying and correctly using equipment, processes and procedures
- implementing contingency plans
- interpreting and following operational instructions and prioritising work
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring work activities in terms of planned schedule
- reading and interpreting relevant instructions, procedures, information and signs
- working collaboratively with others
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- contingency planning for managing and controlling security threats
- emergency management plan and procedures
- operational procedures for identifying security threats and undertaking emergency response
- relevant state/territory permit and licence regulations and requirements
- relevant work health and safety (WHS)/occupational health and safety (OHS) procedures and guidelines
- requirements for approved work procedures and relevant equipment
- risk and hazard-related precautions to control security threats
- typical problems that can occur when undertaking emergency response action to a security threat and appropriate action that can be taken to prevent or solve these problems.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, emergency management plan, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
